

Title: Invitation to the ETUC STANDardisation webinar, in collaboration with CEN, on the technical cooperation between European and international standardisation. Understanding the Vienna Agreement - *6 October, 10h00 CET (Brussels time)*

**Brussels, 14 September 2020**

- *To the members of the Special Committee on Standardisation*

Dear all,

We are happy to hereby invite you to the next webinar the ETUC STANDardisation project is organising, in collaboration with CEN, addressing the technical cooperation between European and international standardisation, namely CEN & ISO: **Understanding the Vienna Agreement**.

The webinar will take place on Tuesday 6 October 2020 at 10h00 CET (Brussels time) and will last approximately 30 minutes.

Background:

The ETUC STANDardisation project facilitates the participation of Trade Unions in both European and international standards development activities. On both levels, there is often parallel standardisation work addressing similar issues. The convergence between European and international standards is facilitated by the ongoing technical cooperation between CEN & ISO : the Vienna Agreement. The webinar, co-hosted with CEN, will look at how the technical agreement is carried out in practise.

Should you be interested in following the webinar, please confirm your participation sending an email to: [NGiorgi\\_consultant@etuc.org](mailto:NGiorgi_consultant@etuc.org) before **2 October (COB)**. Feel free to disseminate the invitation within your respective network.

Connection details will be provided to registered participants.

Best regards,  
The ETUC STAND Team
